

The diagram illustrates a system architecture for a mobile terminal. On the left, a large box labeled "Mobile Terminal" contains several components: "PIM 1 Sync", "PIM 2 Sync", and "PIM N Sync" (with vertical dots between PIM 2 and PIM N), all grouped under the label "Multiple PIM Functionality"; a "Transceiver"; and a "Display". To the right of the terminal is a box labeled "PLMN". Below these is a large cloud labeled "Internet". At the bottom are three boxes labeled "Server 1", "Server 2", and "Server 3".

Numbered labels and arrows indicate the following components and connections:

- 50a**: Points to the "PIM 1 Sync" block.
- 45a**: Points to the "PIM 2 Sync" block.
- 50b**: Points to the "PIM N Sync" block.
- 45b**: Points to the "Multiple PIM Functionality" label.
- 40**: Points to the "Transceiver" block.
- 35**: Points to the "Display" block.
- 60**: Points to the "Mobile Terminal" label.
- 25**: Points to the "PLMN" box.
- 20**: A double-headed arrow connecting the "Transceiver" (40) and the "PLMN" (25).
- 30**: Points to the "Internet" cloud.
- 55a**: Points to the "Sync" block of "Server 1".
- 15a**: Points to the "Server 1" box.
- 55b**: Points to the "Sync" block of "Server 2".
- 15b**: Points to the "Server 2" box.
- 55c**: Points to the "Sync" block of "Server 3".
- 15c**: Points to the "Server 3" box.

Arrows show the following connections:

- From "PLMN" (25) to "Internet" (30).
- From "Internet" (30) to "Server 1" (15a), "Server 2" (15b), and "Server 3" (15c).
- From "Server 1" (15a) to "Internet" (30).
- From "Server 2" (15b) to "Internet" (30).
- From "Server 3" (15c) to "Internet" (30).
